***Allowable Subject Matter***

Claims 1-15 and 17-20 are allowed.

The following is an examiner's statement of reasons for allowance: All of the above claims are allowable over the cited prior art at least because none of the cited prior art shows or fairly suggests the use of an ohmic resistor which is not subjected to the furnace temperature. As stated in the applicant's brief, filed on 2/17/2006 at page 9 for example, the closest prior art (Hopf) employs foils (9, 10) as the resistors, but these foils must necessarily be subjected to the furnace temperature in order for the invention of Hopf to be operable (see page 9, second full paragraph of the applicant's brief for example).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (571) 272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
